Congresses for the Worldwide Laminates Industry:

European Laminates Conference and Workshop 2006

Subtitle: The third European Laminates Conference and Workshop will be held in Prague, Czech Republic, from 4 to 6 April 2006.

Langenzersdorf, 9 February 2006 – The third European Laminates Conference and Workshop will be held at the Intercontinental Hotel in Prague, Czech Republic from 4 to 6 April 2006. After conferences in Vienna, Shanghai, Berlin, and Montreal this event will be the fifth worldwide and the third on the European continent.

The conference is traditionally sponsored and supported by a group of worldwide industry leaders: Dynea, Hymmen, Stora Enso, Technocell Dekor and Vits Systems.

The meeting will continue the successful concept of combining presentations with discussion sessions. These presentations and discussions, together with our traditional social event – Sponsors' reception and Conference Dinner – will make this meeting an industry event that should not be missed.

The focus of the technical sessions will be on the Eastern European markets, design and end products, industry consolidation, environment and regulations, and technical innovations. Further information on the conference program and Prague can be found on the organizer's website www.tcm.at.
