New conference successfully launched:

Interior Surfaces Conference 2007

Subtitle: The first Interior Surfaces Conference was held in Amsterdam, The Netherlands, from 28 to 29 March 2007.

Langenzersdorf, 15 April 2007 – Technical Conference Management, the world's leader in conferences for the high-performance surfaces industry, successfully launched a new event last April in Amsterdam. The conference focused on various surfacing materials such as decorative and technical laminates, thermoplastic foils, and solvent-free coatings.

Digital printing and direct printing were the hottest among a large number of topics which were discussed by 180 experts from around the world. 30 papers were given by experts and scientists from the industry, universities and research institutes in plenary as well as parallel sessions.

The conference was supported by a group of outstanding sponsors: Buerkle, Cytec, DuPont, Hartmann/Sun Chemical, Massen and Treffert. Surface and Panel International acted as the exclusive media partner of the conference.

The conference dinner aboard the "Saloonboot Prinse van Albers" marked the social highlight of the conference, where delegates continued their networking while cruising the canals of Amsterdam.

Future Conferences

Fifth European Laminates Conference: Vienna, Austria, from 9 to 10 April 2008.

Second Interior Surfaces Conference: March/April 2009.

-End-
